1	Introduction	1
2	Importance of sustainability and green practices in the department	2
3	Department-wise Green Initiatives	3-7
4	Summary of Green Initiatives	8-11

1.Introduction

The Department of Civil Engineering was established in the year 1979. Department offers UG program in Civil Engineering (with an intake of 60), PG programs in Environmental Engineering (with an intake of 18) and Structural Engineering (with an intake of 24). The department has two research centers viz. Environmental Science and Civil Engineering research center accommodating research scholars from various Institutes and Industries. The department has well experienced and distinguished faculty with specialization in major areas of civil engineering. The department provides material testing and consultancy services to various agencies. The department is proud to have distinguished alumni doing excellent professional work at the local, national and global level. Department was accredited by NBA in 2004, 2008, 2011, 2021 and also for 3 years from 2024 to 2027.

2. Importance of sustainability and green practices in the department

Go Green Club

Go Green Club is committed to plan and organize events to create awareness about environmental issues and sustainable development.

Objectives of Go Green Club

1. Motivate the students to keep their surroundings clean and green.
2. Organize tree plantation programs.
3. Promote green consciousness awareness.
4. Educate students on waste management and energy conservation.
5. Minimize the usage of plastics.
6. Promote environmental awareness by green consciousness.
7. Arrange technical talks by experts.
8. Awareness program on pollution free campus.
9. Establish environmental museum.

3. Department-wise Green Initiatives
